On or about May 18, 2026, the City will submit a request to the Idaho Department of Commerce for the release of funds under Title 1 of the Housing and Community Development Act of 1974, as amended, to undertake a project known as “City of Roberts Water Project”, for the purpose of construction of a new building adjacent to the tank lot to house new green sand filters and associated appurtenances for the removal of Manganese. Water will be rerouted from the wells into the filter building, through the filters, before flowing into the city water tank. This project will also replace mis-sized and faulty pipes, valves and flowmeters as well as install a SCADA system allowing for increased system awareness and responsiveness. The pumps to the waste and water tank overflow basins will be upsized. Well #3 will have the wellhouse roof replaced and will undergo some repairs to prevent the seals from breaking every 1-3 days. The activity proposed is categorically excluded under HUD regulations at 24 CFR Part 58 from National Environmental Policy Act requirements. An Environmental Review Record (ERR) that documents the environmental determinations for this project is on file at Roberts City office (647 N 2872 E, Roberts, ID) where ERR can be examined or copied weekdays 8:00 A.M. to 4:00 P.M.
